

ID CANDIDATE	ROLE	AVAILABILITY
22745	Go Platform Engineer	30 days

PROFILE RESUME

Senior Go Platform Engineer with 12 years of experience in IT, including over 8 years working with Golang and cloud-native environments. Specialized in designing, building, and maintaining internal platforms supporting Go-based microservices across production-grade cloud infrastructure. Strong expertise in Kubernetes-based environments, Infrastructure as Code with Terraform, CI/CD automation, and observability ecosystems built with Prometheus, Grafana, and OpenTelemetry. Experienced in designing scalable deployment standards, improving reliability, and enabling development teams through platform engineering best practices.

TECHNICAL SKILLS

Golang, Bash, Python (basic), SQL, PHP, AWS, GCP, Docker, Kubernetes, Terraform, Infrastructure as Code, CI/CD, GitHub Actions, GitLab CI, Jenkins, Prometheus, Grafana, OpenTelemetry, Loki, PostgreSQL, MySQL, Linux, Agile, Scrum

EXPERIENCE

Financial Technology

12/2024 – Present

Go Platform Engineer

- Leading platform engineering initiatives responsible for the lifecycle (deployment + observability) of Go-based microservices operating in a high-availability financial environment.
- Designing and maintaining Kubernetes clusters (AWS EKS and GCP GKE).
- Managing Infrastructure as Code using Terraform (modular architecture).
- Developing standardized CI/CD pipelines in GitHub Actions.
- Implementing GitOps-based deployment strategies.
- Maintaining observability stack (Prometheus, Grafana, OpenTelemetry).
- Defining SLOs, alerting rules, and incident response improvements.
- Supporting ~20 development teams using the internal Go platform.
- Improving deployment frequency and reducing rollback incidents.

Golang | Kubernetes | Docker | Terraform | AWS | GCP | GitHub Actions | Prometheus | Grafana | OpenTelemetry | Helm | PostgreSQL

Financial Services

03/2021 – 11/2024

Senior Go Platform Engineer

- Built and maintained internal Kubernetes-based platform.
- Migrated legacy services to containerized architecture.
- Created reusable Terraform modules for cloud provisioning.
- Designed monitoring dashboards and alerting standards.
- Automated Docker build pipelines with integrated security scanning.

Golang | Kubernetes | Docker | Terraform | AWS | GitLab CI | Prometheus | Grafana | EKS | RDS | IAM

E-commerce

06/2019 – 02/2021

Go Backend / DevOps Engineer

- Developed Go-based microservices deployed on Kubernetes.
- Implemented CI/CD workflows in GitLab CI.
- Introduced centralized monitoring and logging.
- Implemented distributed tracing across services.
- Collaborated on performance optimization initiatives.

Golang | Kubernetes | Docker | AWS | GitLab CI | Terraform | PostgreSQL

Software Development

04/2018 – 05/2019

DevOps Engineer

- Maintained AWS infrastructure for multiple clients.
- Implemented Infrastructure as Code practices.
- Designed deployment automation pipelines.
- Standardized containerization approach across projects.

AWS | Terraform | Docker | Jenkins | Linux

Software as a Service (SaaS)

01/2017 – 03/2018

Backend Developer (Go)

- Developed RESTful APIs in Go.
- Implemented authentication and authorization mechanisms.
- Supported migration from monolith to microservices.
- Improved database performance and indexing strategies.

Golang | MySQL | Docker | Nginx

Technology

01/2016 – 12/2016

Backend Developer (PHP / Go)

- Developed backend services.
- Gradually introduced Go services alongside PHP systems.
- Implemented internal APIs and integrations.

PHP | Golang | MySQL

Digital Marketing

07/2014 – 12/2015

PHP Developer

- Developed web applications and backend modules.

- Integrated third-party APIs.
- Maintained production systems.

PHP | MySQL | JavaScript

Information Technology

06/2013 – 06/2014

Junior Backend Developer

- Implemented backend features.
- Assisted with database design.
- Maintained internal tools.

PHP | MySQL

IT Services

06/2012 – 05/2013

Junior Web Developer (Internship -> Full-time)

- Supported development team in web projects.
- Fixed bugs and implemented small features.
- Participated in internal system maintenance.

PHP | HTML | CSS | MySQL

LANGUAGES

Polish: Native

English: Fluent (C1)

COURSES AND CERTIFICATION

AWS Certified Solutions Architect - Associate

AWS Certified DevOps Engineer – Professional

Certified Kubernetes Administrator (CKA)

Certified Kubernetes Application Developer (CKAD)

Google Cloud Professional Cloud Developer

Google Cloud Professional Cloud Architect

ITIL® Foundation Certificate in IT Service Management

EDUCATION

Wrocław University of Science and Technology	Computer Science	M.Sc.	2010 – 2012
Wrocław University of Science and Technology	Computer Science	B.Sc.	2007 – 2010
